# FALL LISTING-1956

## ORCHID RANCH, Inc.

3486 N. W. 25th St.

Miami 42, Florida

So often we hear people comment that they lack orchid plants to flower at a particular season of the year; continuing to say that they have flowers in abundance at certain times — none at all at others.

With the hope of being helpful in this respect, we are listing FLOWERING SIZE plants of botanicals as well as Cattleya hybrids as to their general flowering season.

### FALL FLOWERING PLANTS

(All plants listed are flowering size)

- BRASSAVOLA NODOSA** Plant of unusual appearance - round leaves. Flowers are large, greenish-white with large white lip. Called "Lady of the Night" because of its attractive evening fragrance.  
Multiple lead specimens \$10
- CYCNOCHES**  
**CHLOROCHILON** No collection complete without the famed "swan orchid." Produces 5" waxy, chartreuse flowers fall and winter. Very fragrant.  
\$5-\$7.50-\$10
- C. FABIANID** (C. Enid x C. Fabia) A dependable fall flowering hybrid. Medium lavender with dark lip and yellow eyes in throat.  
\$7.50-\$10
- C. NELL MONTGOMERY** (C. Gaskelliana, var. alba x C. Ben Nevis) White with yellow throat. An excellent producer for fall and winter.  
\$10-\$20
- C. OLD FORESTER** (C. Charybdis x C. Enid) Fall and winter producer of fine, large flowers of heavy substance.  
\$25-\$40
- EPIDENDRUM**  
**COCHLEATUM**  
(Mexican Species) One of the so-called "black orchids" because of the deep purple-black color of the cockleshell-shaped lip. Five to twelve flowers to the stem. Often flowers more than once a year, variable.  
\$7.50
- LC. IMPERIAL SUGAR** (Lc. Hillary, FCC, RHS x C. Mt. Royal) A strong grower, producing large, medium-dark flowers from late fall through winter.  
\$15-\$25
- LC. LILY PONS** (Lc. Canhamiana 'alba' x C. Priscilla 'alba') White flowers with dark purple lip are produced at various times of the year. A number of these plants flower in fall, again in spring.  
\$10-\$15

- LC. MARIE WEBB (C. Nutley 'alba' x Lc. Mab) Good producer of large white flowers with dark lip for fall season.  
\$12.50-\$25
- LC. MEMORIA (Lc. Marie Louise x C. Peetersi) Strong-growing, summer and fall flowering hybrid. Usually has 4-6 large flowers per stem. Mauve sepals and petals, dark lip with yellow eyes in throat.  
REMY CHOLET \$12.50-\$25
- LC. WILDA MARSHBURN (C. Trianaei x Lc. Gloria) Produces fine round flowers during the fall months. Rosy-mauve sepals and petals, dark crimson-purple lip.  
\$10-\$25
- ONCIDIUM ANSIFERUM An attractive and unusual plant with wafer-thin pseudobulbs, producing sprays of attractive yellow flowers marked with brown. Very rare in cultivation.  
\$10
- ONCIDIUM CHEIROPHORUM A dwarf-growing species producing numerous small, bright yellow flowers in fall.  
\$3.50
- PERISTERIA ELATA The "Dove orchid" is a vigorous-growing terrestrial. Fragrant, white, waxy flowers are produced in abundance in fall.  
\$10-\$15

-----  
W I N T E R F L O W E R I N G P L A N T S

(All plants listed are flowering size)

- BC. CLIFTONI (Bc. Digbyano-Mossiae x C. Trianaei) Through the years we have accumulated divisions of this fine pink hybrid. Darker lip is deeply fringed. Winter and early spring.  
'THE GLOBE' \$20-\$30
- C. ANN ALBERTS (C. Edithae x C. Souvenir de Louis Sander) A large, fine white for winter flowering.  
\$20-\$30
- C. BRUNO ALBERTS (C. Souvenir de Louis Sander x C. White Empress) A large, shapely white with good substance. Yellow to yellow-orange throat.  
\$20-\$30
- C. CLOTHO (C. Enid x C. Trianaei) This well-known hybrid has been a favorite for years. It combines vigor of growth and floriferousness; flowers of rosy-mauve with dark purple lip.  
\$7.50-\$12.50
- C. ENID 'ALBA' (C. Mossiae, var. Reineckiana x C. gigas, var. F.M.B.) Fine winter producer of large white flowers with heavily purple-veined lip. Vigorous grower.  
\$12.50-\$25

- C. JOAN MANDA (C. Suzanne Hye x C. White Empress) A medium sized white; pleasing shape and good keeping qualities.  
\$15-\$25
- C. REMY CHOLET (C. Monarch x C. Trianaei) Vigorous grower, producer of large shapely flowers. Sepals and petals rosy-mauve, dark lip with yellow-orange throat.  
\$10-\$25
- C. SWAN (C. Edithae 'Madelon' x C. Mlle. Louise Pauwels) One of our showiest whites; flowers winter, often a second time in fall.  
\$25-\$40
- C. TITRIANAE (C. Tityus x C. Trianaei) A free-flowering hybrid for the fall and winter season. Light to medium lavender with dark lip.  
\$12.50-\$20
- EPIDENDRUM  
RADICANS This reed stem orchid adapts itself well to any climate. A natural for "window culture." Produces a succession of fiery orange flowers through winter and spring.  
5" pots, 5-6 plants \$3.50
- LC. ALBERTO TOSELLI (Lc. Britannia x C. Trianaei) A vigorous hybrid producing 3 to 4 flowers to the stem. Color is rosy-mauve with deeper purple lip.  
\$12.50-\$20
- LC. BASTOGNE (Lc. Warlad x C. Trianaei) A fine midwinter producer of medium to dark mauve flowers with dark crimson-purple lip. The petals have a large triangular area of darker color extending from center to tip.  
\$25
- LC. BOURGOGNE (Lc. W. E. Bisset x C. Maggie Raphael) A good producer, flowering generally in January and February.  
\$7.50-\$12.50
- LC. JANE FROMAN (C. Alwyni 'Jane Froman' x Lc. Hassalli 'Cowan's', FCC, RHS) A good producer of large white flowers with deep purple lip.  
\$15-\$25
- LYCASTE AROMATICA Golden-yellow flowers, 2-3" across, are produced on individual stems from the base of the newly formed pseudobulb. A dozen or more flowers may be produced from one bulb.  
\$7.50
- LYCASTE DEPPEI Flowers 3-4" across. Sepals are pale green, flushed or spotted with red, petals are white. Lip bright yellow, spotted with red.  
\$7.50-\$10
- ONCIDIUM AMPLIATUM  
VAR. MAJUS The "turtle back" orchid, one of the most spectacular, predominantly yellow, winter flowering types.  
\$7.50-\$10-\$12.50
- ONCIDIUM MACULATUM Flower spikes about 2' long, often branched. Star-shaped flowers are 2" across. Sepals and petals yellowish-green, heavily blotched with chestnut brown. Lip white, shading to yellow at tip.  
\$7.50-\$10

- ONCIDIUM  
ORNITHORHYNCHUM Handsome plants producing many flowered scapes. Flowers are soft rose-lilac in color; crest of lip yellow, fragrant.  
\$7.50-\$10
- ONCIDIUM SPLENDIDUM As the name implies, "a splendid species." Flower spikes erect, branched. Flowers are large, with the bright golden-yellow lip the most prominent feature.  
\$7.50-\$10
- ONCIDIUM  
STIPITATUM Very short pseudobulbs with long, fleshy, round leaves. Produces clusters of bright yellow "dancing lady" flowers.  
\$7.50

-----  
S P R I N G   F L O W E R I N G   P L A N T S

(All plants listed are flowering size)

- AERIDES ODORATUM A very attractive, erect-growing plant producing numbers of fragrant, creamy-white, magenta-tipped flowers on arching racemes during late spring months.  
Potted with tree fern poles \$12.50, \$15
- BRASSAVOLA  
DIGBYANA Spring flowering parent of most of the "Brasso" hybrids. Produces large, green-white flowers with huge fringed lip. Rarely seen in cultivation today.  
\$12.50
- BRASSAVOLA GLAUCA A small plant producing large, heavy-textured flowers of greenish-white with white lip; delightful lemon fragrance.  
\$7.50-\$10
- C. CARARA (C. Idette x C. Mlle. Louise Pauwels) A shapely, medium sized white with yellow throat. Has excellent keeping qualities.  
\$15-\$25
- C. ELEANORE 'ALBA' (C. Hardyana 'alba' x C. gigas, var. F.M.B.) A fine vigorous grower, producing large flowers. White with dark lip having yellow eyes in throat. June season.  
\$15-\$25
- C. ELLA SUTTON (C. Harold, var. alba x C. Mabel, var. alba) Good sized white flowers; season, June.  
\$15-\$20
- C. HAROLD 'ALBA' (C. Gaskelliana, var. alba, x C. gigas, var. F.M.B.) A selected European strain of this fine, vigorous, late spring flowering hybrid. White with purple lip.  
\$12.50-\$25
- C. OENONE 'ALBA' (C. Mossiae, var. Wagereri x C. Labiata, var. alba) Excellent keeping qualities. White with yellow throat.  
\$10-\$15
- EPIDENDRUM  
ATROPURPUREUM A very vigorous-growing plant producing heavy  $2\frac{1}{2}$ " flowers of purplish brown with deep rose-colored lip. Sweetly scented flowers last a month.  
\$7.50-\$10-\$12.50

- EPIDENDRUM MARIAE Another well worthwhile plant seldom seen in collections. Plant habit small, flowers very large comparatively; green sepals and petals, large white lip with green in throat.  
\$7.50-\$10
- LC. HAYDN (Lc. Vallandina x C. gigas) A stocky, free-branching hybrid. Produces large medium mauve flowers with dark purple lip.  
\$20-\$25
- LC. NELLIE COHEN (Lc. Canhamiana 'Gloria' x C. Ballantineana 'Moore's') A spring flowering hybrid you can depend on. Three to six large flowers per stem on strong plants. Medium sepals and petals, dark lip.  
\$15-\$25
- LC. STONEHOUSE (Lc. Canhamiana 'Gloria' x C. Trianaei) A vigorous grower and fine producer of large medium mauve flowers with deep purple lip.  
\$15-\$25
- LYCASTE BARRINGTONIAE One of the most attractive members of the genus. Flowers are large, waxy, of clear yellow color.  
\$7.50
- ONCIDIUM CARTHAGINENSE This plant has attractive, stiff, green leaves with small dark spots. Flowers of cream and purplish-rose are borne in abundance on erect spikes in late spring.  
\$10-\$12.50
- ONCIDIUM LURIDUM (Cuban species) A handsome and vigorous-growing plant. A hundred or more yellow-brown flowers are produced in spring.  
\$10.00

-----  
S U M M E R F L O W E R I N G P L A N T S

(All plants listed are flowering size)

- BRASSIA ALLENI A recently discovered species, very rare in cultivation. Plant grows in an interesting fan shape, the spidery flowers have the fragrance of honey.  
\$15
- BRASSIA MACULATA One of the most attractive "spider orchids." Flowers are large, greenish-yellow with brown spots, 6-12 on a spray.  
\$10
- C. GENERAL GIRAUD (C. Ensign x C. Mossiae) A free-breaking hybrid for early summer. Three to four large flowers are usually produced to the stem. Flowers are medium mauve, lip is dark crimson-mauve with yellow eyes in throat.  
\$7.50-\$12.50
- C. IKE (C. Tityus x C. Veriflora) A vigorous grower and free producer of large flowers. Sepals and petals of light rosy-mauve, dark mauve lip with yellow veination in throat.  
\$7.50-\$12.50
- C. LORNA (C. Enid 'alba' x C. gigas, var. F.M.B.) Large white flowers with mottled purple lip. Flowers in the "in between" season when flowers are scarce.  
\$15-\$25

- C. WEDDING DAY (C. Ben Nevis x C. Mina) A vigorous, free-flowering white with yellow throat for late spring - early summer. Whites are scarce at this season.  
\$15-\$25
- EPIDENDRUM NEMORALE A strong-growing species which bears a branching flower spike 2-3 feet long, many flowered. Flowers are rose mauve, borne in abundance on the stem. Lip is large with cream-colored center.  
\$10
- EPIDENDRUM RADIATUM A charming species producing clusters of "cockle shell" flowers of cream color with radiating purple lines in throat.  
\$5-\$7.50
- LC. BREDE (Lc. Jubilee x Lc. San Juan) Beautiful, round, medium flowers with dark lip are produced in early summer.  
\$15-\$25
- LC. SARGON (Lc. Lustre x C. Hardyana) A strong, floriferous type with very dark lip. Should receive good light for best growth.  
\$10-\$15
- LC. TREGANEY (Lc. Barbareca x C. Petalina) A fine summer hybrid; medium to dark sepals and petals with velvety purple lip.  
\$7.50-\$12.50
- ONCIDIUM LANCEANUM Stiff green leaves are peppered with small dark spots. Flowers 2½" are produced on short erect spikes. Long lasting, fragrant blossoms are chartreuse, heavily marked with chocolate; lip is violet-purple.  
\$7.50
- ORNITHOCEPHALUS BICORNIS A true miniature orchid. A pseudobulbless type with the leaves arising alternately from the crown. Small white flowers are produced freely from short, erect spikes.  
\$3.50
- RODRIGUEZIA SECUNDA A small-growing species producing heavily flowered scapes of bright rose-pink flowers -- a little gem.  
\$7.50

---

#### ORCHID LITERATURE

- "HOME ORCHID GROWING", by Rebecca T. Northen.  
An up-to-date book covering the subject in detail. \$6.50
- "YOU CAN GROW ORCHIDS", by Mary Noble  
A fine introduction for the beginner. \$1.98
- "ORCHIDS AS HOUSE PLANTS", by Rebecca T. Northen  
Details on culture of orchids as house plants. \$3.50

## UNFLOWERED CATTLEYA HYBRIDS

#193X - BC. TRILAND (C. Trianaei x Bc. Hartland)

The well-known and proven parent Bc. Hartland, combined with C. Trianaei to produce flowers for the Christmas season.

5" - \$12.50

-----

#195 - LC. KING GEORGE V (Lc. Canhamiana 'alba' x Lc. Britannia 'alba')

Remake of a fine, spring flowering white with colored lip.

3½" - \$6

-----

#215 - C. ENID 'METEOR' X C. OLD FORESTER

Vigorous growing plants, expected to produce fine flowers twice a year.

3½" - \$6

-----

#259 - LC. MEMORIA REMY CHOLET X LC. PRINCESS MARGARET

Large shapely flowers of good substance for the summer season.

3½" - \$6

-----

#269X - LC. SPRATT MANGUS (Lc. Tegucigalpa x C. Trianaei)

Medium lavender sepals and petals, crimson-purple lip, cross made for Christmas flowering.

3½" - \$6

-----

#280X - BLC. MIAMI (Lc. Dr. Walter Jones x Bc. Hartland)

Medium to dark flowers of good shape and substance for winter season.

5" - \$15

-----

#317X - BLC. DAWN ANGELA X C. TRIANAETI.  
VAR. A. C. BURRAGE

Medium to light flowers with dark lip, excellent shape, December and January.

5" - \$15

-----

#338X - BLC. WAGNETTE (Blc. Nanette x C. Mossiae, var. Wageneri)

An interesting hybrid; flowers of good shape and substance, color ranging from white, WCL to delicate pastels and lavenders.

5" - \$15

-----

#346X - LC. JANE FROMAN (C. Alwyni 'Jane Froman' x Lc. Hassalli Cowan's' var., FCC, RHS)

Showy, winter flowering white with solid, dark lip.

3½" - \$6; 5" - \$15

-----

#370X - C. JOYCE HANNINGTON 'PERFECTION' X BLC. NANETTE

Plants that have flowered have varied considerably as to pattern and intensity of coloring. Many lovely pastel pink types have flowered from this cross.

3½" - \$6; 5" - \$12.50

-----

#522X - C. HELEN P. DANE X C. BEBE WHITE  
White with yellow throat for the winter season.

5" - \$15

-----

Above-listed plants in 5" pots are in sheath or of size to probably flower on next growth.

Plants in 3½" pots are of size to shift into 5-6" pots.

\*\*\*\*\*

May we suggest that an orchid plant or plants might be the ideal gift for an occasion. Except for holiday seasons (when demand for flowering orchids always exceeds the supply) we have plants available with buds showing. These can be shipped to flower shortly after arrival.

Write us as to your needs — we can ship prepaid plants from \$10.00 and up.

## SPECIAL

The tremendous interest shown in bifoliate Cattleya hybrids during the past few years has prompted us to seek a source of these husky, free-flowering plants. We have just received a shipment from a prominent grower who has grown and hybridized the plants for a number of years. All plants listed are flowering size; description of flower types is taken mainly from information furnished us by the originator.

- #40Z LC. BARTON (C. Granulosa x Lc. Canhamiana)  
Large flowers, blush pink with creamy background; lip spatulate, dark purple.  
\$12.50-\$20
- #41Z C. AUDREY SCHUBERT (C. Loddigesi x C. Annie J. Lines)  
Flowers of heavy substance are light to dark lavender with yellow lip.  
\$15
- #84Z C. BOWRINGEANA  
Vigorous growing species, well known for its showy clusters of medium lavender flowers with darker purple lip. \$15
- #166Z C. GRANULOSA X C. HAROLD ALBA  
Sepals and petals range in color from lavender flush to yellow; lip is spatulate, deep purple. \$15
- #231Z C. KENCOLOR (C. bicolor x C. Kenosha)  
Clusters of flowers ranging in color from flushed white to chartreuse with dark spatulate lip. \$10

-----  
CATTLEYA SEEDLINGS

These plants have all matured their original seedling growth and are ready to start, or have started, the second growth.

## D E N D R O B I U M S

Among the finest of spray-type orchids, these plants are vigorous growers, producing arching sprays of large, round flowers.

- 162 D. PHALAENOPSIS, DIXON STRAIN X SELF  
Mature plants for fall and winter  
flowering; produce a dozen or more  $3\frac{1}{2}$ "  
dark red-purple flowers per spray.  
5" pots \$10  
-----

- 208 D. ROI ALBERT (D. ANTELOPE X D.  
D'ALBERTESI)  
Strong grower, light yellow-green  
flowers of good size at various times  
throughout the year.  
Flowering size \$10-\$20  
-----

- 332R D. SUPERBUM, VAR. DEAREI X SELF  
The third generation of the proven pure  
white strain. Four-inch flowers in  
groups of 2 and 3 produced from canes  
in spring; fragrant. A choice  
collector's item.  
 $3\frac{1}{2}$ " pots \$7.50  
-----

- 338 D. TAURUS X UNKNOWN HYBRID  
Like to take a chance? Very vigorous  
growing seedlings. Identity of  
second parent unknown.  
3" pots only \$2  
-----

- 638X D. PHALAENOPSIS, DIXON STRAIN X SELF  
Seedlings of the 6th generation of line  
breeding for the darkest color possible.  
2" pots \$1  
-----

- 613X D. PHALAENOPSIS, VAR. DELICATA 'MY  
FAVORITE' X (D. PHALAENOPSIS X D.  
BIGGIBUM), ORCHIDWOOD  
This cross, utilizing the finest selected  
parent plants, is expected to produce  
medium mauve-colored flowers of very fine  
shape in fall and winter.  
2" pots \$1;  $2\frac{1}{2}$ " pots \$2.50  
-----

- 614X D. PHALAENOPSIS, VAR. DELICATA 'MY  
FAVORITE' X D. PHALAENOPSIS, VAR. WHITE  
FOAM  
Selected parents should produce flowers  
of excellent shape. Color variable.  
2" pots \$1  
-----

- 615X D. PHALAENOPSIS, VAR. DELICATA 'MY  
FAVORITE' X SELF  
Expecting fine, shapely, lavender-pink  
flowers.  
2" pots \$1;  $2\frac{1}{2}$ " pots \$2.50  
-----

- 616X D. PHALAENOPSIS, VAR. DELACATA 'MY  
FAVORITE' X D. PHALAENOPSIS DIXON'S  
VARIETY  
Vigorous-growing seedlings, flowers of  
full shape with color range from light  
to dark. Should be very fine.  
2" pots \$1  
-----

## P H A L A E N O P S I S

Latest hybrids of the well-known "moth orchids" for  
late winter and early spring flowering.

- 748X P. DORIS 'PINK CLOUD' X (P. DORIS  
X P. ELINOR)  
We expect large, light pink flowers  
of fine shape.  
2" pots \$2.50  
-----

- 749X P. SNOW WHITE X P. CHIEFTAIN  
Exhibition type whites are expected from  
this mating of selected parent plants.  
2" pots \$2  
-----

## STRAP LEAVED VANDAS

## #145 - V. TRICOLOR

Strong growing species producing cream-colored flowers marked with brown, lip violet purple. Fragrant.

Large 2-3 foot, flowering size plants \$15

## #154 - V. SHARLYN WONG (V. tricolor, var. Broadview x V. Memoria T. Iwasaki)

Flat, butter-yellow flowers marked with brown.

Flowering size \$12.50 up

## #166 - V. SANDERIANA, VAR. LLEWELLYN X SELF

A choice form of the species; several have already won awards.

Flowering size \$50

## #167 - V. CHIMEY WALKER (V. Flammerolle x V. Sanderiana)

A fine strain. Large flat flowers in blue, pink and raspberry.

To flower within the year, \$12.50; Flowering size \$15-\$25

## #168 - V. HERZIANA (V. tricolor x V. coerulea)

A favorite for its blue color, fragrance and floriferousness.

5" size \$7.50

## #169 - V. KAI OLU (V. tricolor x V. Herziana)

Vigorous grower, flowers varying in color from blue to cream marked with magenta.

Flowering size \$10-\$15

## #170 - V. DENNISONIANA, VAR. HEBRIACA X V. SANDERIANA

Flat, well-shaped flowers in brown, chocolate and bronze. Fragrant.

To flower within the year \$10; flowering size \$12.50 up

## #171 - V. HONOLI (V. Herziana x V. Sanderiana)

Vigorous grower, free flowering, producing large flowers ranging from blue to pink, raspberry and salmon tones. Almost no two alike.

Flowering size \$15

## #180 - V. CAROL HIRANO (V. Gilbert Triboulet x V. Sanderiana)

Large flat flowers with color range from blue to pink.

Flowering size \$15

-----

## UNFLOWERED VANDA SEEDLINGS

## #317 - V. SANDERIANA 'KONO'S #4', FCC, AOS

X V. MARY FOSTER

3½" pots \$5

-----

## #394R - V. HONOLULU 'KONO'S PINK'

X V. SANDERIANA 'KONO'S #7,'

FCC, AOS

2" pots \$2.50

-----

## #396R - V. SANDERIANA 'KONO'S #4', FCC, AOS

X (V. CLARA SHIPMAN FISHER 'OTA'S'

X SELF)

2" pots \$2.50

-----

## #566X - V. BURGEFFI 'PINK BEST'

X V. SANDERIANA, FCC

2" pots \$1.50

-----

## #530X - V. ELLEN NOA X V. SUAVIS

3½" pots \$5

## #723X - V. HONOLI 'RASPBERRY'

X V. SANDERIANA 'SELECT'

2" pots \$1.50

-----

## INSTRUCTIONS FOR ORDERING

1. All plants are offered subject to prior sale. No substitutions will be made on orders without authorization. We make NO PACKING CHARGE.
2. Unless otherwise advised, shipment will be made via Railway Express charges collect. (All orders are F.O.B. Miami.)
3. Claims for damaged shipments must be filed immediately with the carrier by the consignee. We pack carefully and responsibility for safe arrival is entirely that of the carrier.
4. Unless your credit has been established with us, kindly enclose check, money order, or bank draft to cover payment of your order in full. Foreign orders should be accompanied by draft on a U.S. Bank.
5. Non-warranty: We, Orchid Ranch, Inc., give no warranty, express or implied, as to the productiveness of any of the plants we sell, and will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of these plants.

## SPECIAL

The tremendous interest shown in bifoliate *Cattleya* hybrids during the past few years has prompted us to seek a source of these husky, free-flowering plants. We have just received a shipment from a prominent grower who has grown and hybridized the plants for a number of years. All plants listed are flowering size; description of flower types is taken mainly from information furnished us by the originator.

#40Z LC. BARTON (*C. Granulosa* x *Lc. Canhamiana*)

Large flowers, blush pink with creamy background; lip spatulate, dark purple.

\$12.50-\$20

#41Z C. AUDREY SCHUBERT (*C. Loddigesi* x *C. Annie J. Lines*)

Flowers of heavy substance are light to dark lavender with yellow lip.

\$15

#84Z C. BOWRINGEANA

Vigorous growing species, well known for its showy clusters of medium lavender flowers with darker purple lip.

\$15

#166Z C. GRANULOSA X C. HAROLD ALBA

Sepals and petals range in color from lavender flush to yellow; lip is spatulate, deep purple.

\$15

#231Z C. KENCOLOR (*C. bicolor* x *C. Kenosha*)

Clusters of flowers ranging in color from flushed white to chartreuse with dark spatulate lip.

\$10
